Good morning,

Attached is a complaint against Gates Dispatcher Terry Cooper from Gates trainee Gregory Brooks (TDF-53810).

I retrieved the mail from my mailbox this morning when I arrived to work at approximately 6:30am. There was a sealed envelope with my name on it labeled "URGENT".

Please see attached.

This is deep, Eunice and Kenise, my immediate thought is not allow him to work. Schedule the sit-down and take it from there. James can you let's us know the trainees work schedule and he should keep this confidential. I would re-assign him to work in-house until this is resolved.

Terry is off today and returns tomorrow.

I am out next week and I would ask that Sal as his immediate supervisor and Raymond on behalf on me, be part of this.

Please let me know how to proceed.

As we spoke Craig - I am in agreement.

Please have Terry report to Gates on Monday - we will meet with him at 12.

Craig - Please have Raymond Jones & Sal report to Gates for 11:30am on Monday.

James - what time is Gregory due back from field? I would like to meet with him as well right after Terry.

Please do not inform Gregory that this meeting is scheduled for Monday until Monday.

Let me know if you have any questions.

If you get my response I am underground on the train and will follow up as soon I am above ground again.

Thanks

E

Understood, I work on the coverage for dispatch and the WTP. Terry will be informed not to report to work over the weekend and he should report to Gates at 12noon on Monday 7/25. Both Sal and Raymond will report to Gates at 11:30 to meet with you prior to the sit-down

Sorry to bother you already but depending on the conversation on Monday should I run this complaint by our attorney now or after I meet with Terry.

Thanks!

We met with both Terry and Gregory and both had a lot similar recaps of the event minus any admission of guilt of grabbing Gregory on Terrys part and sexually assaulting him. There were a few areas of question on both sides after having Gregory walk us through and Terry giving his version of the day in question. I will work on the write-up with details and Elizabeth will also contribute but we are waiting for the reveal of the video that he also claims he has that has footage of Terry sexually assaulting him. He refused to show us and said he was told by his attorney not to and that he would wait until he met with them tomorrow at 4pm to make a decision to allow us to see the video.
 We thought it was strange but he said has no problem allowing us to view it. We left off that he would reach out to either Elizabeth or myself after his meeting. We will all touch base first thing again Wednesday morning.

Thanks

-Eunice

No - he did bring up that a lot of the other guys have complained about Terry's comments, jokes etc he says he these trainees are complaining on tape at least 6 others - (we believe Gregory recorded them without their knowledge) he tried to play the recording but we were really interested in the one in which he was interacting with Terry.

I just started to put together the write up now. I actually got a call today from Gregory at 3:57 right before he were to meet with his attorney but nothing after.

The Porter incident from a while back is still bothering me. I reached out to Donna Harris who I think was still there at the time and asked her if she remembers an incident at Porter where a client accused a staff member of going upstairs to his room and touching his genitals. She remembered it immediately and said that she thinks the staff member the

client accused was Terry. I told her I didn't remember any of the specifics but I was trying to locate an email about the overall incident if there was one. She didn't remember anything else about it so I still can't seem to find the email.
 'But.....I'm not the only one that remembers the incident.

Just seeing this one - I read the emails out of order...but the reason my search didn't yield anything earlier is because I saw his name was misspelled in the subject.

Thanks again!

Well.....I still can't find anything in my email so I have no idea how or why I even remembered this. And I wasn't even still working at Porter at the time. It's a good thing Nadia got tired of hearing me struggle with the many variations of searches I spent over an hour doing - including every variation of an incident including "genitals" I could think of. She looked it up in Felipe's emails and found it in 5 seconds.

Kenise, since his phone call I have not heard back from Gregory as of yet.

I happen to speak with Terry today and informed him to remain home until he is contacted otherwise.

I will add that he stated if he should be terminated or this goes the other way he will like to basically keep a little dignity and he wouldn't want to face the men in the program so could "that" take place at 102 instead of Gates.

Thanks
